## GIRLS TO BE INTRODUCED TO ENGINEERING MARCH 5

AIKEN, S.C., (March 1) – On Saturday, March 5, Savannah River Site engineers will continue to take small steps toward easing the approaching shortage of workers skilled in the engineering disciplines at the fifth annual “Introduce a Girl To Engineering Day.”

During this day-long event, to be held at USC-Aiken’s Ruth Patrick Science Center, approximately 50 girls from 25 middle schools in the CSRA will interact with SRS professionals, who will teach them more about careers in engineering.

“Unless they have a parent who is an engineer, girls this age are not likely to give much thought to ‘engineering’ as a career option,” says Susan Wood, former director of the Savannah River Site’s applied research and development laboratory and founding sponsor. “We want to give them a reason to add it to the careers they are considering.”

One of the reasons that so few females go into engineering is that they do not receive adequate math and science education in high school. That’s the reason for focusing on middle-school girls, Dr. Wood says. “If we catch their interest now, they will see a reason to sign up for the math and science courses they need in high school,” she says. “The more math and science they take, the broader their options.”

The day will include games to help girls discover where their interests lie, as well as interactive, hands-on activities to show them how their natural problem-solving abilities form the basis for many engineering skills.

According to Barbara Smoak, Manager of WSRC Education Outreach Programs, the focus on female middle-school students is by design. “Our goal is to provide programs that will generate student interest in careers such as engineering that are critical to the success of SRS and local industries. We have a particular interest in providing this information to female students because traditionally, females are underrepresented in career fields that are science and technology oriented.”

“Introduce a Girl to Engineering Day” is an offshoot of National Engineers Week, which is being celebrated across the country – including SRS – Feb. 20-26. Last year about 43 girls from 22 middle schools participated in the event.

The CSRA Society of Women Engineers is helping to sponsor the local event, with support from Westinghouse Savannah River Company and its partners (Westinghouse Savannah River Company, Bechtel Savannah River Incorporated, BNFL, BWXT Savannah River Company, CH2 Savannah River Company and Polestar Savannah River Company); USC Aiken - Ruth Patrick Science Education Center; Washington Safety Management Solutions and CSRA – American Society for Engineering Management.

**“Introduce a Girl to Engineering”**  
**Saturday, March 5, 2005**  
Ruth Patrick Science Education Center

8:30-9:00	Registration and Breakfast - Solarium	
9:00-9:20	Introduction and What is Engineering? - <b>Museum</b>	Dr. Susan Wood
9:20-9:40	Ice Breaker Bingo	Joette Sonnenberg
9:40-10:10	“Deal Me In” Blue and Red groups – <b>Archaeology Room</b> Green and Yellow groups – <b>Rm. 117</b>	EOP Personnel
10:10-10:20	Break	
10:20-10:40	Liquid Nitrogen Demonstration - Museum	Dirk Byrd
10:40-Noon	Interactive Demonstration Session (Blue/Green and Yellow/Red will rotate at 11:20)	
	Green/Blue group ( <b>Rm. 117</b> ) – <i>Remote Equipment/Mars</i>	Mary Harris/Deb Moore-Shedrow
	Red/Yellow group ( <b>Gallery</b> ) – <i>Hovercraft</i>	Scott Outlaw
Noon-12:40	Blue and Yellow Groups - <i>Planetarium Show (Rollercoaster)</i> Green and Red Groups – Lunch in <b>Rm. 127</b>	Darlene Smalley – RPSEC
12:40-1:20	Green and Red Groups - <i>Planetarium Show (Rollercoaster)</i> Blue and Yellow Groups – Lunch in <b>Rm. 127</b>	Darlene Smalley – RPSEC
1:20-2:15	Blue and Yellow ( <b>Museum</b> ) – <i>So You Think You Can</i> Green and Red ( <b>Rm. 117</b> ) - <i>Building Contest</i>	P. K. Hightower/Jill Brown Amanda Reedy/Sarah Ross
2:15-3:10	Green and Red ( <b>Museum</b> ) – <i>So You Think You Can</i> Blue and Yellow ( <b>Rm. 117</b> ) – <i>Building Contest</i>	P. K. Hightower/Jill Brown Amanda Reedy/Sarah Ross
3:10-3:40	Testing/Awards/Wrap Up in <b>Rm. 117</b> Closing Remarks	SRS Engineers Jaclyn Spear
